

Postdoctoral Research Associates in Surface Sciences

We are seeking several postdoctoral fellows to work in the following research groups in Kwansai Gakuin University so as to promote the surface and interface related science and technology.

X-ray diffraction (head, Professor Isao Takahashi)

IR spectroscopy (head, Professor Yukihiro Ozaki)

Bio-membrane, Membrane by amphiphilic molecules (head Professor Satoru Kato)

Superlattice by metals and ferroelectrics (head, Professor Kiyoshi Sakaue)

Computer simulations (head, Professor Shinichi Sawada)

Period: From April, 2008 to March, 2009 (Reapplication for the following academic year's project is possible.)

Monthly Stipend: 278,000 Japanese Yen (Air fare to/from Japan is not covered. Accommodations are not covered, either.)

For Inquiries Contact:

Prof. Isao Takahashi
