CLIRSPEC Summer School

East Asia School in Hyogo, Japan

6-10, August 2019

WELCOME TO CLIRSPEC SUMMER SCHOOL IN JAPAN

CLIRSPEC summer school is for students and young researchers who study and are willing to do biomedical spectroscopy. It is organized by CLIRSPEC in collaboration with Japan Association of Medical Spectroscopy (JAMS) and held in Asia for the first time. The school invites the world famous scientists in biomedical and clinical spectroscopy for the lecturers. The students are able to learn, discuss and make experiments together with them. The school has great collaborations of the spectroscopy companies. The students are able to touch and operate their cutting-edge instruments with their supports. The school is held at Kobe Seminar House in quiet forest in Kobe city. The program is all inclusive, you can enjoy studying among international students.
